NUMBER 1

David Chenho Kung	1	The Behavior Network Model for conceptual information modeling
Motomichi Toyama	23	Counter reduction technique for combined processing of selection and join
C. Y. Chen, C. C. Chang and **R. C. T. Lee**	37	Optimal MMI file systems for orthogonal range retrieval
Tzong-Chen Wu, Yi-Shiung Yeh and **Chin-Chen Chang**	55	Algebraic operations on encrypted relational databases
Sakti Pramanik, Anastasia Analyti, Henry Davies and **Hsiao-Yu Chou**	63	Multi-Directory Hashing

NUMBER 2

Tiziana Catarci, Giuseppe Santucci and **Michele Angelaccio**	75	Fundamental Graphical Primitives for Visual Query Languages
Jang-Jong Fan and **Keh-Yih Su**	99	The effect of database filters on the performance of buffered relational database systems
Brian Knight and **Ma Jixin**	111	An extended temporal system based on points and intervals
Kemal Koymen and **Qujun Cai**	121	SQL*: a recursive SQL
Frank Leymann	129	Refinement of enquiries in retrieval systems based on the universal relation model
	141	Corrigendum

NUMBER 3

Curtis E. Dyreson and **Richard T. Snodgrass**	143	Timestamp semantics and representation
P. Goyal, T. S. Narayanan and **F. Sadri**	167	Concurrency control for object bases
Yanchun Zhang and **Maria E. Orlowska**	181	Parallel processing for the full reduction of a chain query in distributed databases

James K. Mullin 189 Estimating the size of a relational join

NUMBER 4

Erhard Rahm and **Donald Ferguson** 197 Cache management for shared sequential data access

William J. Welland and **Ben Shneiderman** 215 A graphical query interface based on aggregation/generalization hierarchies

Sakti P. Ghosh 233 Statistical databases: design of experiment structures

Michel Kuntz 249 Introduction to GIUKU: Graphical Interactive Intelligent Utilities for Knowledgeable Users of data base systems

Short Note
Debajyoti Mukhopadhyay 269 A generic retrieval system design supporting interoperability

NUMBER 5

Carlos A. Heuser, Eduardo Meira Peres and **Gernot Richter** 275 Towards a complete conceptual model: Petri nets and entity-relationship diagrams

Murlidhar Koushik 299 Dynamic hashing with distributed overflow space: a file organization with good insertion performance

Edward Omiecinski 319 An analytical comparison of two secondary index schemes: physical versus logical addresses

Kien A. Hua, Chiang Lee and **Honesty C. Young** 329 Data partitioning for multicomputer database systems: a cell-based approach

Patrick E. O'Neil, Kenneth Baclawski and **D. Frank Hsu** 343 Designing computer networks to avoid partitioning

NUMBER 6

Do Heon Lee and **Myoung Ho Kim** 363 Accommodating subjective vagueness through a fuzzy extension to the relational data model

Sang H. Son and **Spiros Kouloumbis** 375 A token-based synchronization scheme for distributed real-time databases

Paolo Atzeni and **Riccardo Torlone** 349 A metamodel approach for the management of multiple models and the translation of schemes

Opher Etzion 391 Flexible consistency modes for active databases applications

Jaya P. Molly and **Thomas J. Murray** 405 A modularization approach for PROLOG knowledge bases

NUMBER 7

Pankaj Goyal, T. S. Narayanan and **Fereidoon Sadri** 419 Query processing in distributed databases with non-disjoint data

Pavel Zezula and **Fausto Rabitti** 429 Object store with navigation accelerator

Jan Van den Bussche and **Andreas Heuer** 461 Using SQL with object-oriented databases

A. H. M. ter Hofstede, H. A. Proper and **Th. P. van der Weide** 489 Formal definition of a conceptual language for the description and manipulation of information models

James E. Gary and **Rajiv Mehrotra** 525 Similar shape retrieval using a structural feature index

NUMBER 8

Hans-Jochen Schneider iii Editorial

B. Dathan 539 Transaction management in N-version programmed database systems

Özgür Ulusoy and **Geneva G. Belford** 559 Real-time transaction scheduling in database systems

Carol Small 581 A functional approach to database updates

Eric A. Schweitz and **Alan L. Tharp** 597 Adaptive hashing with signatures

Shivraj Kanungo 609 Information systems: theoretical development and research approaches
